

# LinkCAD

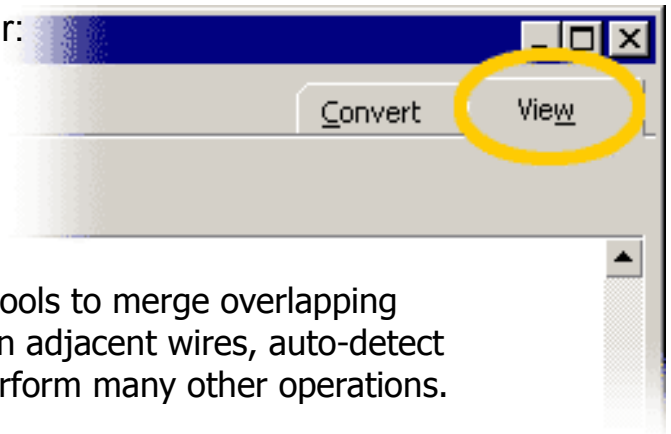

## for CAD Conversions

 LINKCAD - "TRANSLATION AND VIEWING OF CAD DATABASES"

LinkCAD is the most robust and powerful CAD translator available and supports a wide range of file formats. It features a very intuitive user interface, which guides you through each step of the conversion process.

But LinkCAD is much more than a converter:

Display the loaded drawings in the built-in CAD viewer, measure distances and highlight broken polylines.

Use several tools to merge overlapping polygons, join adjacent wires, auto-detect holes and perform many other operations.

Correct common design problems, such as open or self-intersecting polygons.

Convert several files without user intervention in batch mode.

Fix damaged files, which cannot be read by other software.

Merge overlapping polygons 

Convert shapes to polygon outlines 

Convert quasi-circles to circles 

Connect adjacent wire segments 

Auto-detect holes 

Merge, subtract or intersect layers

## J.D. Photo-Tools

<b>CAD Format Supported</b>	<b>Import</b>	<b>Export</b>
<b>GDS-II (Calma Stream Format)</b> <i>the widely used layout file format</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>DXF</b> <i>AutoCAD's drawing interchange format</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>CIF (Caltech Intermediate Format)</b> <i>a layout format used mostly at universities</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>Gerber RS-274X</b> <i>the standard PCB file format</i> ★	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>Adobe PostScript</b> <i>for producing high-quality printouts</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>Graphics Files</b> <i>such as TIFF, PCX, BMP etc</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>GDS-TXT</b> <i>our human readable/editable version of GDS-II</i> ★	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>Zeland IE3D</b> <i>IE3D Electromagnetic Simulator's format</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>LASI TLC</b> <i>a layout format used by the free LASI editor</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<b>COMPASS Layout Files</b> <i>a layout format written by COMPASS Design Automation tools</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Binary Die Format (BDF)</b> <i>Pattern generator format</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>ASCII delimited data</b> <i>for your own applications</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

★ Requires purchase of Gerber option  
 ★ Requires purchase of GDS-TXT option

## Product Pricing

We offer a 50% discount to educational institutions on the prices listed below:

	<u>Single User</u>	<u>Network</u>
<b>LinkCAD Basic</b>	<b>£ 625</b>	<b>£ 1875</b>
+ GERBER option	+ £ 150	+ £ 400
+ VIEW option	+ £ 175	+ £ 525
+ GDS-TXT option	+ £ 125	+ £ 325
+ Tools option	+ £ 225	+ £ 600
+ Edit option	+ £ 150	+ £ 400
+ ACIS option	+ £ 150	+ £ 400

**LinkCAD (Full)**                      **£ 1350**                      **£ 3800**  
 Discounted package

Delivery: LinkCAD is delivered exclusively by Internet.  
 Prices above are based on Windows operating system - please enquire for prices on Linux and Unix platforms. After you purchase LinkCAD, we send you a Registration Code or a Network License, which turns the 15-day trial version into a registered version.
